

# 6 Blade Single Row 6 1/8" - 156mm

Available in 13mm or 16mm Primary Cutters

Designed for both shallow and deeper wells in the WCSB as a stable, rugged, steerable bit, with consistently high ROP.

The short gauge design helps minimize the bit to bend dimension for use on directional wells.

Utilizes TSD's (Thermally Stable Diamond) on the face and gauge for body protection.

Nozzle placement creates efficient hydraulics and superior cleaning.

Premium P.D.C. cutters for superior longevity.
