

6 Blade Ultra Double Row 7 7/8" - 200mm

Available in 13mm or 16mm Primary Cutters

Designed for both shallow and deeper wells in the WCSB as a stable, rugged, steerable bit, with consistently high ROP.

The short gauge design helps minimize the bit to bend dimension for use on directional wells.

Utilizes TSD's (Thermally Stable Diamond) on the face and gauge for body protection. Addition of double row cutters provides bit longevity and steering ability in more abrasive formations keeping the hole in gauge.

Nozzle placement creates efficient hydraulics and superior cleaning.

Specifications

Cutter Density	34-16mm Primary Cutters w/ 8-13mm Trimmers	
Gauge Length	2 1/4"	57.2mm
Make Up Length	10"	254.0mm
Total Length	14 1/4"	362.0mm
Number Nozzles	6	
Nozzle Type	6500 Series Adjustable	
Connection	4 1/2" API Regular	
Recommended Flow Rate	350 - 600 GPM	1.3-2.3 m ³ /Min
Recommended Rotary RPM (Lower in Hard Formations)	80-100	
Recommended WOB	10,000-20,000 lbs	4,448-8,896 daN

Stable, Durable and Directional Friendly...
